GoldSeal-SaarGummi India Pvt.Ltd., diana@goldseal.in	GoldSeal-SaarGummi is constantly innovating & making new designs for the new cars being launched for car/SUV platforms designed all over the world. Currently "SOLID LIGHT" is being developed for light weighting using micro cellular technology giving the strength of solid rubber with the lightness of sponge rubber. FOAM TIGHT is now ready with low density EPDM Rubber replacing Butyl as a sealing agent in the gripping profile & makes it reusable while leaving no marks on "Body in White". These products are patented by SG Germany & are manufactured by GSSG India in Daman, Ahmedabad & Chennai plants for the OEM who require significant contribution to reducing the overall weight of the vehicle. VARIO PROFILE Section is already being supplied to major International OEM's in India who are conscious about the perfect sealing to keep out air, water, noise, dust & make the customer have a superb driving experience in a clean temperature controlled passenger compartment. LIGHT WEIGHTING metal reinforcement to optimize the "body to weight ratio" for DoorSeal & improve the Gripping section on the metal body giving a "perfect seal". The new launches are for Mahindra Thar, MGI Model K, Hyundai Bn7i, Cabin MStar Refresh for Mahindra & CNH Tractors.
Gravton Motors Pvt Ltd, connect@gravtonmotors.com	Quanta Rapid EV Quanta SE Gravton QRX Gravton ARQ
Greaves Cotton Limited, sounava.burman@amperevehicles.com	1. New Launch - Electric Scooter (1) 2. Launch - Electric scooter & Ampere Brand Launch 3. Unveiling - Electric scooter, Electric 3W (cargo), Electric 3W (Passenger), Electric 3W (concept Cargo)
